

Dr. Garnes & Dr. Borisinkoff travel to Nairobi, Kenya, Africa

This trip introduced collaboration between Kenya and other international and African partners. NDCPD will continue this collaboration with Kenya through the sharing of ideas, best teaching practices, and inclusive education techniques. The goal is to build the capacity for inclusive education in Kenya one step at a time. This collaboration can be summed up with the phrase, ***We may not have it all together...but together we have it all!***
